Lists and aligned equations from LaTeX

PDFToolkit

1 A list with two levels

- A first item with a short description that continues onto another line in a narrow browser window.
- A second item with a nested list.
  - A nested item.
  - Another nested item.
- A final item.

2 Two aligned equations

$$x + y = 3 \tag{1}$$
$$2x - y = 0 \tag{2}$$

The two equality signs should share a column. Each equation has a number.
